Re:	D.C. By-Law Amendment

1. Introduction

The Town of Aurora (Town) passed development charges (D.C.) by-law 6592-24 on March 26, 2024. At the time of by-law passage, the *Development Charges Act* (D.C.A.) did not include studies as an eligible cost to be funded through development charges.

On June, 6, 2024, Bill 185 (*Cutting Red Tape to Build More Homes Act, 2024*) received Royal Assent and includes the following changes to the D.C.A.:

- The removal of the Mandatory Phase-in for D.C. by-laws passed after Bill 185 comes into effect;
- A reduction to the D.C. rate freeze timelines for developments proceeding through site plan and zoning by-law amendment applications under the Planning Act. Charges are currently held at rates in place on the date the application is made until building permit issuance, provided the building permit is issued within two (2) years of the approval of the application. This time period is proposed to be reduced to 18 months under Bill 185 (note that the two (2) year timeline will still apply to applications received prior to Bill 185 receiving Royal Assent);
- Inclusion of growth-related studies, including the D.C. background study, as a D.C.-eligible costs;
- Provide a provision of the D.C. by-law specifying the date the by-law expires or to amend the provision to extend the expiry date;
- To allow minor amendments related to the imposition of studies, removal of the mandatory phase-in, and extension of by-law expiry dates (subject to the 10-year limitations provided in the D.C.A.) to be undertaken for by-laws passed after November 28, 2022 and before Bill 185 takes effect; and

- To modernize public notice requirements.

The purpose of this memorandum is to provide the basis for the proposed amendment to the Town's D.C. by-law (attached) to include the costs of growth-related studies.

Subsection 19 (1.2) of the D.C.A. allows for amendments to be made to a D.C. by-law to include growth-related study costs without following subsection 19 (1) of the D.C.A. (subsection 19 (1) of the D.C.A. requires sections 10 to 18 to be followed when making an amendment to a D.C. by-law.). As such an amendment for this purpose does not require the preparation of a background study or a public meeting of Council.

Furthermore, the by-law cannot be appealed to the Ontario Land Tribunal under section 14 of the D.C.A. Notwithstanding the foregoing, the clerk of the municipality is still required to give notice of by-law passage in accordance with subsections 13 (2) to (4) of the D.C.A.

2. General Government (Studies)

The D.C.A. permits the inclusion of studies undertaken to facilitate the completion of the Town's capital works program. These studies have been included as a class of service under General Government (Studies), where each study relates to at least one of the Town's D.C. services.

Table 2-1 summarizes the studies that have been included in the D.C. calculations, which identify the gross capital costs, anticipated timing, deductions, and D.C. eligible costs.

Based on Table 1, the Town has identified \$5,441,800 in growth-related studies. The following deductions have been made:

- \$220,000 to recognize the portion of the planning studies that benefit non-D.C. services;
- \$1,707,200 to recognize the benefit to the existing community; and
- \$504,688 to recognize the available reserve fund balance related to studies.

Therefore, the net amount to be included in the D.C. for General Government (Studies) is approximately \$3,009,912.

Table 2 presents the amended schedule of D.C.s, with the addition of General Government (Studies).
